

DESIGNED FOR BUSINESS.

IX90

The Verifone IX90 is a user-friendly, small footprint, integrated point of sale perfectly suited for ISVs and SMBs. The IX90 pairs with many Verifone payment devices – including the UX700, P630, T650c and M450 – and provides a powerful point of sale system chock full of great features that enhance the customer experience, build loyalty and boost your brand.

- Friendly by design, the low profile IX90 enhances customer interaction without interfering with the sale.
- Abundant flexibility allows for the POS screen to position horizontally or vertically and the payment device to be coupled or positioned separately.
- Open Android platform provides ease of integration for developers to port and manage POS applications.
- Add powerful commerce capabilities that grow your business by accepting Advanced Payment Methods, connecting your online store front with your instore presence, and more with Verifone Cloud Services.
